

Product Code: E070

Autoclave

Standard: ASTM C151, AASHTO T107

Description:

It consists of a high-pressure boiler made from special alloy steel, inside dia. 154x430 mm high, receiving a holding rack for 10 cement specimens. The heating system is achieved by electric resistances.

Technical Specifications

Internal Dimensions: Inside dia. 154x430 mm high	Specimen Capacity: Holding rack for 10 cement specimens
Boiler Material: High pressure boiler made from special alloy steel	Control Panel: Separate control panel with digital thermometer
Temperature Display: Digital thermometer to visualize boiler temperature	Pressure Gauge: Scale 0 - 600 psi with built in pressure regulator
Power Supply: 230V 1ph 50Hz 3500W 295psi	Weight: 150 Kg approx.
