

Product Code: CB-001

EHWA-CB-001

Features: Diamond Core Drilling Technology

Description:

High-performance diamond core drilling bits designed for precision drilling in concrete, masonry, and other construction materials. Features advanced diamond cutting technology for superior performance and longer service life in demanding drilling applications.

Technical Specifications

Model Range: ZD-R10, ZD-R20, ZD-R30	Machine Power: 2-2.5 kW (ZD-R10), 2.5-3.3 kW (ZD-R20), 3.5+ kW (ZD-R30)
Hard Materials Application: R10 (ZD-R10), R20 (ZD-R20), R30 (ZD-R30)	Medium Materials Application: Optimized cutting segments for medium density materials
Soft Materials Application: Specialized design for soft material drilling	Diamond Technology: High-grade diamond cutting segments
Core Bit Construction: Steel body with diamond-impregnated cutting segments	Cutting Performance: Superior cutting speed and precision
Power Range: 2.0 kW to 5+ kW machine compatibility	Drilling Accuracy: Precise core sample extraction

No. 15 Chile St. Ph1 Greenheights Subdivision Concepcion 1, Marikina City, Philippines
