

**Product Code: S172-01N**

**Motorized liquid limit device, NF**

**Standard:** ASTM D4318 | AASHTO T89 | UNI 10014  
 comparable to: BS 1377-2 | UNE 7377

**Description:**

The S172-01N motor-operated liquid limit device operates at 120 drops/min for uniform accuracy. With a bakelite base and chrome cup, it determines the moisture content at which clay soil transitions from a plastic to a liquid state, based on blows needed to close a soil groove.

**Technical Specifications**

<b>Operation Type: Motor operated</b>	<b>Drop Rate: 120 drops/min</b>
<b>Base Material: Bakelite base</b>	<b>Cup Material: Chrome cup</b>
<b>Weight: 4.5 Kg</b>	<b>Power Supply: 230V 1F 50Hz</b>
