

Product Code: TS-PDC-005

PDC Bits & Tricone Bits

Description:

We offer a full range of PDC and Tricone bits for diverse drilling, engineered for various geological formations and conditions. PDC bits excel in cutting efficiency and longevity in ideal formations, while Tricone bits are versatile across different rock types.

Technical Specifications

Bit Types: PDC (Polycrystalline Diamond Compact) Bits, Tricone Bits	PDC Technology: Polycrystalline diamond compact cutting elements
Tricone Design: Three-cone roller bit configuration	Applications: Various drilling applications and geological formations
Performance: High-performance drilling solutions	PDC Advantages: Excellent cutting efficiency and extended service life
Tricone Advantages: Versatile drilling capability across rock types	Formation Compatibility: Different geological formations and drilling conditions
Durability: Extended service life in suitable applications	Quality Standards: Taesung manufacturing excellence
Range: Comprehensive selection for various needs	Professional Grade: High-performance drilling solutions

No. 15 Chile St. Ph1 Greenheights Subdivision Concepcion 1, Marikina City, Philippines
